

I would like to comment on Indiana's Telephone Privacy Law and the wonderful impact it has had on our family. With two young children, 22 months and 2 months, Indiana's Telephone Privacy Law has reduced our unwanted telephone calls to practically zero. This is especially beneficial during dinner time, which the only time that the entire family has together. I sincerely ask that the FCC NOT implement any law that would lessen Indiana's Telephone Privacy Law protections. Our family time is important, and this law has given back to us some of this precious time. Please, do not change this. Thank you for reading our comment.
